Call for Papers

Societal challenges and IoT, e.g., urban planning and decision making tools
Ownership of data in IoT scenarios

EDITOR-IN-CHIEF

Dennis Pfisterer, Duale Hochschule Baden Württemberg
Mannheim, Germany

EDITORS

Farouq Al-Omari, Jordanian Universities Network (JUNET),
Jordan
Maurizio Atzori, University of Cagliari, Italy
Jian-Nong Cao, Hong Kong Polytechnic University, Hong Kong
Han-Chieh Chao, National Ilan University & National Dong Hwa University, Taiwan
Whai-En Chen, National Ilan University, Taiwan
Mischa Dohler, King’s College London, UK
Stefan Fischer, University of Lübeck, Germany
Horst Hellbrück, Lübeck University of Applied Sciences, Germany
Andrew Hudson-Smith, University College London, UK
Wen-Jyi Huang, National Taiwan Normal University, Taiwan
Young-Sik Jeong, Dongguk University, Korea
Hai Jiang, Arkansas State University, USA
Chin-Feng Lai, National Chung Cheng University, Taiwan
Shie-Jue Lee, National Sun Yat-sen University, Taiwan
Jianhua Ma, Hosei University, Japan
Juan Suardíaz Muro, Universidad Politécnica de Cartagena, Spain
Luís Muñoz, University of Cantabria, Spain
Barbara Pes, University of Cagliari, Italy
Mirko Presser, Alexandria Institute, Denmark
Fangyang Shen, New York City College of Technology, USA
Mu-Chun Su, National Central University, Taiwan
Ye Tian, China Internet Network Information Center (CNIC), China
Lorna Uden, Staffordshire University, United Kingdom
Vijay Varadharajan, Macquarie University, Australia

SCOPE

Topics relevant to this journal include, but are NOT limited to:

- System architectures for IoT, e.g., things-centric, data-centric, event-centric, and service-centric
- IoT applications including e.g., smart homes/offices/cities, waste management, continuous care, emergency response, and intelligent shopping
- IoT programming toolkits and frameworks
- IoT prototypes and evaluation test-beds
- Privacy and security
- IoT management and interoperability
- Management of IoT streams
- Enabling technologies and standards for the IoT
- Spatial and temporal reasoning for IoT
- Sustainability of IoT platforms, e.g., business models for deployment and maintenance

ABOUT OJIOT

Open Journal of Internet of Things (OJIOT), an open access online journal, publishes original and creative research results on the internet of things. OJIOT distributes its articles under the open access model. All articles of OJIOT are fully open access and online available to readers free of charge. Accepted manuscripts are published online immediately. OJIOT aims to provide a forum for sharing and exchanging ideas, experiences and research results among scientists and practitioners of internet of things. OJIOT publishes regular research papers, short communications, reviews and visionary papers in all aspects of internet of things. There is no restriction on the length of the papers.

SUBMISSION

OJIOT welcomes submissions at any time.
Guidelines: www.ronpub.com/ojiot/author-guidelines
Submission: www.ronpub.com/ojiot/submit
