Call for Papers

- Sustainability of IoT platforms, e.g., business models for deployment and maintenance
- Societal challenges and IoT, e.g., urban planning and decision making tools
- Ownership of data in IoT scenarios

**EDITOR-IN-CHIEF**

Dennis Pfisterer, Duale Hochschule Baden Württemberg Mannheim, Germany

**EDITORS**

- Faruq Al-Omari, Jordanian Universities Network (JUNet), Jordan
- Maurizio Atzori, University of Cagliari, Italy
- Jian-Nong Cao, Hong Kong Polytechnic University, Hong Kong
- Han-Chieh Chao, National I-lan University & National Dong Hwa University, Taiwan
- Whai-En Chen, National I-lan University, Taiwan
- Mischa Dohler, King’s College London, UK
- Stefan Fischer, University of Lübeck, Germany
- Guangjie Han, Holai University, China
- Horst Hellbrück, Lübeck University of Applied Sciences, Germany
- Andrew Hudson-Smith, University College London, UK
- Wen-Jyi Hwang, National Taiwan Normal University, Taiwan
- Young-Sik Jeong, Dongguk University, Korea
- Hai Jiang, Arkansas State University, USA
- Chin-Feng Lai, National Chung Cheng University, Taiwan
- Shie-Jue Lee, National Sun Yat-sen University, Taiwan
- Jianhua Ma, Hosei University, Japan
- Juan Saúdáiz Muro, Universidad Politécnica de Cartagena, Spain
- Luis Muñoz, University of Cantabria, Spain
- Cathryn Peoples, The Open University, UK and Ulster University, UK
- Barbara Pes, University of Cagliari, Italy
- Mirko Presser, Alexandra Institute, Denmark
- Fangyang Shen, New York City College of Technology, USA
- Mu-Chun Su, National Central University, Taiwan
- Ye Tian, China Internet Network Information Center (CNNIC), China
- Lorna Uden, Staffordshire University, United Kingdom
- Vijay Varadarajan, Macquarie University, Australia

**ABOUT OJIOT**

Open Journal of Internet of Things (OJIOT), an open access online journal, publishes original and creative research results on the internet of things. OJIOT distributes its articles under the open access model. All articles of OJIOT are fully open access and online available to readers free of charge. Accepted manuscripts are published online immediately. OJIOT aims to provide a forum for sharing and exchanging ideas, experiences and research results among scientists and practitioners of internet of things. OJIOT publishes regular research papers, short communications, reviews and visionary papers in all aspects of internet of things. There is no restriction on the length of the papers.

**SCOPE**

Topics relevant to this journal include, but are NOT limited to:

- System architectures for IoT, e.g., things-centric, data-centric, event-centric, and service-centric
- IoT applications including e.g., smart homes/offices/cities, waste management, continuous care, emergency response, and intelligent shopping
- IoT programming toolkits and frameworks
- IoT prototypes and evaluation test-beds
- Privacy and security
- IoT management and interoperability
- Management of IoT streams
- Enabling technologies and standards for the IoT
- Spatial and temporal reasoning for IoT
