About OJIS
Open Journal of Information Systems (OJIS), an open access online journal, publishes original and creative research results on information technologies. OJIS publishes its articles under the open access model. All articles of OJIS are fully open access and online available to readers free of charge. Accepted manuscripts are published online immediately. OJIS aims to provide a forum for sharing and exchanging ideas, experiences and research results among scientists and practitioners of information technologies. OJIS publishes regular research papers, short communications, reviews and visionary papers in all aspects of information systems. There is no restriction on the length of the papers.

Scope
The journal expects original, high-quality papers, including but NOT limited to the fields:
- Data management
- Information management
- Knowledge management
- Knowledge Representation
- Information integration
- Intelligent information access
- Enterprise Application Integration
- E-commerce
- Privacy and security in an e-society
- Design, Development and Management of information systems
